Luxury knows no limit. It is not confined to the wheels we drive or to our drawing rooms and bedrooms. It has also reached the bathrooms. Today, people want to surround themselves with luxury every moment. Shikra Sanitaryware & Faucets is fuel to their desire. By offering world-class bath amenities Shikra is feeding the souls of its customers with luxury. Shikra was incepted with a vision to infuse class and finesse in every aspect of the lives of people.

Bathrooms, which are often not subjected to luxury, are now seen in a new light and the credit goes to Shikra.

ULTIMATE RIMLESS TECHNOLOGY FOR BATH SPACES

A toilet without a typical rim is known as a rimless toilet. A direct flush method shoots water around the edge of a smooth pan, as opposed to water pouring into the bowl around the rim. Rimless toilets are less sanitary and easier to clean than standard toilets because they lack a rim.

The ultimate rimless technology for your bathroom.

A rimless toilet made for significantly easier cleaning and a clear improvement in hygiene. There is no build-up of bacteria and no possibility for limescale to lurk. The rimless technology ensures quintessential hygiene with effective flushing that offers an efficient solution ensuring that the entire inner surface is rinsed throughout the flushing process.

FLUSHING SYSTEM

SYPHONIC

The Syphonic flush system is also known as the suction flushing system. The Syphonic flush system creates the narrow "Q" shaped trap way. You'll have a clear bowl with a lower chance of skid marks. With the use of advanced technology in flushing.

SYPHONIC WITH TORNADO

The combination of syphonic & tornado will bring the highest quality of hygiene into your bathrooms. With the help of this advanced & one of the easiest to maintain flushing systems, it'll be easier to keep up with cleanliness in just a second. We introduce you to brand new features 4D & 5D flushing system.

TORNADO

Tornado flush system features two powerful nozzle that will create a cyclonic rinsing action. It will reduce waste buildup & keeps the bowl neat and clean. This high-efficiency mechanism is more effective in one flush than most toilets are with multiple flushes.

WASH DOWN

The way wash down flushing works is very simple. It will use the weight and gravitational flow of water from a toilet bowl. It will save your water effectively as it includes dual flushing.

Welcome to our exquisite collection of faucets, where we present you with an elegant fusion of style, functionality, and innovation. Our passion for exceptional design, performance, and quality has led us to curate a diverse range of faucets, including single lever, quarter turn, half turn, and allied faucets. We understand that your choice of faucet is not just a practical necessity but a reflection of your personal style and discerning taste.

THE BRAND CORE

REASON FOR EXISTENCE

We simply exist to transform the moments for our valued customers. Our products carry our promise to deliver the best user experience during their usage. Our high caliber bath fitting products are crafted with passion, and delivered with a guarantee to serve you better for many years. Over the period, the brand shikra has mastered the art of bathing and delivered the highest results in quality, design, service and business. Nevertheless, our aim is to go one notch higher than our own selves by constantly improving upon our previous perfections while taking care of the minutest details of our consumers who feed us back with their experiences of our products. We are committed to become your most preferred brand for the many years to come. After all, what inspires us the most is our customers and their aspirations for a very good life.

THE 'Q' FACTOR

QUALITY THAT SPEAKS

For some it maybe just a term on a random dictionary page, for us it's the lifeline. The Q factor of quality is what makes the change possible in everything we do at shikra. We take this Q factor very seriously and treat as a beacon of guiding light that empowers us to become the best version of ourselves. From design board to delivery van, we maintain this principle to its utmost hight. For this, we constantly enhance our systems, processes and performance benchmark which results into a vigorous system of design-to-delivery and complete customer delight. We are proud of the fact that our commitment to 'Q' has made our happy customers speak great things about us.

ONLY THE BEST
GETS OUT

PARTS COLLECTION

As part of our corporate quality manifesto, we never let even the slightest inaccuracy come between the best product and you – our esteemed client. We adhere to the stringent quality checks and balances in order to provide consistently better products.

From raw material to process to dispatch, our hawk-eyed professionals ensure that when you buy OMEN product, you get only the best. With the help of highly advanced technologies and several core components imported like aerator from Germany, in addition to our in-house production facility that boasts of having the most modern machinery, we create bath fashions that works wonderfully and looks great.
